

Mebrahtu F. Weldeghebriel

Postdoctoral Research Fellow, Department of Geosciences, Princeton University, Princeton, NJ 08544, USA

mweldeg@princeton.edu | [Google Scholar](#) | [Website](#)

RESEARCH INTERESTS

Low-temperature and isotope geochemistry · paleoclimatology · ancient seawater chemistry · long-term carbon cycle · evaporites, brines, carbonates and dolostones · critical mineral resources in sedimentary basins · ice-core geochemistry · development of in situ analytical methods.

ACADEMIC POSITIONS

Gordon and Betty Moore Postdoctoral Research Fellow, Princeton University	Sep 2026 – Present
NSF Postdoctoral Research Fellow, Princeton University	Sep 2024 – Sep 2026
Harry H. Hess Postdoctoral Research Fellow, Princeton University	Sep 2022 – Sep 2024
Graduate Research and Teaching Assistant, Binghamton University	Aug 2016 – Jul 2022
Lecturer and Teaching Assistant, Eritrea Institute of Technology	Sep 2011 – Jun 2015

EDUCATION

Binghamton University, State University of New York, Binghamton, NY Aug 2016 – Jul 2022

PhD, Geological Sciences

Dissertation: *Secular variability in major, minor, and trace element composition of Phanerozoic and Neoproterozoic seawater: evidence from fluid inclusions in marine halite*. Advisor: Dr. Tim Lowenstein, Distinguished Professor.

Eritrea Institute of Technology (EIT), Asmara, Eritrea Sep 2006 – Jul 2011

BSc, Geology

Dissertation: *Sedimentology and lithostratigraphic characteristics of the evaporite succession in the Colluli area, Danakil Depression, East African Rift, Eritrea*. Advisor: Dr. Nageshwar Dubey, Professor.

HONORS, FELLOWSHIPS, AND AWARDS

- NSF Office of Polar Programs Postdoctoral Research Fellowship ([OPP 2420291](#)), \$359,487 (2024–2026), Principal Investigator.
- Gordon and Betty Moore Foundation Postdoctoral Fellowship, \$60,000 (2026–2027).
- Harry H. Hess Postdoctoral Research Fellowship, Princeton University, \$147,838 (2022–2024).
- Graduate research grants: Geological Society of America MGPV Division, \$2,500 ([2019](#)); Society of Economic Geologists Foundation, \$4,700 ([2018](#)); American Association of Petroleum Geologists Foundation, \$3,000 ([2018](#)).
- Graduate Student Excellence Award in Research, Binghamton University (2021).
- Graduate Student Research Award for excellence in research proposal, GSA MGPV Division (2019).
- Research Assistantship Scholarship Award, Binghamton University (2021–2022).
- Teaching Assistantship Scholarship Award, Binghamton University (2016–2021).
- Provost Doctoral Summer Fellowship, Binghamton University (2016–2020).
- Türkiye Scholarship, Dokuz Eylül University, Turkey (2015).
- Outstanding Student and Gold Medal Winner, College of Science, Eritrea Institute of Technology (2011).

TEACHING

- Binghamton University, Graduate Teaching Assistant (2016–2021): laboratory sections of 15–30 students each semester for five years in Geochemistry (GEOL 470/570), Planet Earth (GEOL 111), Earth's Interior (GEOL 214), Climate and Paleoclimate (GEOL 414/514), and Geology of the Solar System (GEOL 102).
- Eritrea Institute of Technology, Lecturer and Teaching Assistant (2011–2015): General Geology, Geological Map Interpretation, Rock-Forming Minerals, Introduction to Geophysics, and Field Mapping; led eight undergraduate field camps for more than 100 students.
- Mentoring: trained an undergraduate intern, four graduate students, a postdoctoral researcher, and a laboratory technician at Princeton and Binghamton in LA-ICP-MS and lithium-isotope analytical methods; supervised more than 40 undergraduate field projects and theses at the Eritrea Institute of Technology.

TALKS

- Secular variability in major, trace element, and isotopic composition of Phanerozoic and Neoproterozoic seawater: Implications for reconstructing drivers of seawater secular variability and climate ([Environmental Geology and Geochemistry Seminar](#), Princeton University, Nov. 9, 2023).
- Secular variability in major, trace element, and isotopic composition of Phanerozoic and Neoproterozoic seawater: Implications for reconstructing drivers of seawater secular variability and climate ([AOES/GEOL Seminar](#), George Mason University, Oct. 26, 2023, virtual).

ACADEMIC AND PROFESSIONAL SERVICE AND OUTREACH

- Coordinator, Environmental Geology and Geochemistry Seminar (EGGS) Lecture Series, Department of Geosciences, Princeton University (2025–present).
- **Session Convener**, “Seawater Chemistry Through Time: Reconstructions, Mechanisms, and Feedbacks,” Goldschmidt 2026.
- **Session Convener**, “The Evolution of Seawater Chemistry Through Time,” Goldschmidt 2025.
- **Session Convener**, “The Carbon Cycle as Reflected in Ocean Chemistry and Marine Records,” EGU General Assembly 2024.
- **Peer reviewer** for *Nature Communications*, *Geology*, *Earth-Science Reviews*, *Journal of Geochemical Exploration*, and *Geological Quarterly*.
- **Community service**, Mathematics and Life Skills Teacher, Shambuko Junior and Secondary School, 2008–2009.

FIELD AND INDUSTRY EXPERIENCE

- Lithium Americas Corp., Nevada, USA, Exploration Intern (Jun–Sep 2021): field exploration of lithium-bearing sedimentary basins at 25+ sites across six U.S. states; 500+ samples collected.
- South Boulder Mines Ltd., Eritrea, Exploration Intern (Jun 2010–Mar 2011): evaporite mapping and potash drill-core logging at the Colluli Potash Project, Danakil Depression.
- Dead Sea, Israel: coring and sedimentology of modern halite as an analog to deep hypersaline basins (Dec–Jan 2019/20).
- Afar Rift and Danakil Block, Eritrea: GPS geodetic surveys and broadband seismometer deployments, including monitoring of the 2011 Nabro eruption (2012–2014).
